Couplet
Healthy Stream, Lake Clean

Iron ore, limestone, coal, salt, and grain
Are what is being shipped,
To stop Aquatic Invasives,
We must be equipped.

Stop illicit dumping,
Down the Storm drain,
It goes into the Lake,
And causes a lot of pain.

If you see a warning,
And still swim,
Relax and float,
'Till you're washed back in.

If you have a goldfish,
Please don't release it,
You may think it's right,
Finding a new home is a better fit.
